SHEPPY'S

— MASTER OF CIDER —

J. Sheppy

REAL CIDER TAKES TIME. 200 YEARS.

We are one of the oldest cider making families in the world with a proud history that goes back more than 200 years.

Today, under the watchful eye of David Sheppy, our sixth generation Master of Cider, we continue to champion the same traditional methods, using our superior crafting skills to produce award winning and world class premium craft ciders.

We wouldn't put our name on anything less.

A black and white photograph showing several large wooden barrels stacked in rows. The barrels are made of dark wood and have light-colored metal bands wrapped around them. The perspective is from a low angle, looking down the length of the barrels, creating a sense of depth. The lighting is dramatic, with strong highlights and deep shadows. Overlaid on the image is the text 'THINGS' in large, white, sans-serif capital letters, and 'R' in a smaller, white, sans-serif capital letter below it.

THINGS

R

py still champions the same
thods that were used by his
forefathers generations ago.

OUR HISTORY

Richard Sheppy
(David's father and 5th generation cider maker)

A black and white photograph of an apple tree branch. The branch is covered in small, round apples and leaves. The background is a soft-focus view of more trees and foliage. A dark, semi-transparent rectangular box is overlaid on the lower half of the image, containing white text.

Sheppy's is a family business founded in Somerset, in 1816. Two centuries later, David still champions the same methods to make his cider that were used generations ago - balanced with the very best of modern technology. Every drop is genuinely crafted using home or locally grown apples and natural wild yeasts. We press all of the apples used for our ciders on the farm - there is no secret recipe. It's simply about the experience and craftsmanship that has come from 200 years of knowledge and cider making, passed down through six generations of Masters of Cider.
